Happenings in and Around Frank

Nell McCall, of Macleod, spent Sunday at the Rocky Mountain Sanatorium.

A Manuel, proprietor of the Frank hotel is able to be about again after a brief illness.

Harvey Murphy has been enjoying a visit to the coast and is expected home this week end.

Some sixty miners are writing examination papers at the Rocky Mountain Sanatorium this week.

W. J. McGowan, who went to Vancouver on the first of the month, is expected home on Sunday next.

Miss McCallum, of Calgary, has been engaged to fill the deficiency in the school staff, and arrived this week.

A meeting of the trustee board of Knox Methodist Church was held at the church on Tuesday night.

R. W. Thompson returned last week from an extended trip through eastern Canada and the States.

R. E. Mercer and wife, of Macleod, were week-end visitors at the Sanatorium, returning home Sunday evening.

The man Stewart, of Blairmore, who received injuries at the cement works a few weeks ago, has come out of hospital.

If you knew of the real value of Chamberlain's Lintment for lame back, soreness of the muscles, sprains and rheumatic pains, you would never wish to be without it. For sale by all dealers.

Samuel Shone and Fred Allott have been appointed board of examiners for Mine managers, pit bosses and fire bosses for the Crow's Nest District.

C. Vinet, who had been attending the Stampede at Calgary last week returned to town on Sunday last. Mr. Vinet resigns the management of the Rocky Mountain Sanatorium on Sunday next.

Few, if any medicines cure met with Colic, Cholera and Diarrhoea. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by all dealers.

As there are two bonded warehouses, the Frank Wine & Spirit Co. and Dominion Express Co. in Frank, Mr. Beach has been retained as a preventative officer for the town at the same salary as he was drawing formerly as Collector of Customs.

The Canadian Coal Consolidated Co. have awarded the contract to W. J. Scott, of Pincher Creek, to remove all their cottages off the danger zone, and the work will commence on Monday next. At present most of these cottages are vacant, but as soon as they are moved they will be all occupied.

Running up and down stairs, sweeping and bedding over mucking beds will not make a woman healthy or beautiful. She must get out doors, walk a mile or two every day and take Chamberlain's Tablets to improve her digestion and regulate her bowels. For sale by all dealers.

The coal company have started work on the sinking of a new shaft just west of Bohemian town. The new shaft is estimated to cost in the neighborhood of \$1,000,000, and should be sufficient information for the Doubting Thomas's as to the feeling of the coal company towards the abandonment of the town of Frank. Hope is just as bright in the town today as ever it was, and in fact brighter, for in addition to the sinking of a new shaft there is a movement on foot which will materialize into a mammoth cement plant. It is said that a strong company has the matter in hand and that the big smelter has been acquired, which will be converted into a store room while the main factory will be constructed north of it.

Coleman Notes

G. MacLean, of Lethbridge, was a Coleman visitor on Wednesday.

A. I. Blais, of Frank, paid Coleman a business visit on Tuesday.

Fred Locke is around again, after his accident in the mine a week ago.

J. H. and Mrs. Ross, who took in the Stampede at Calgary, returned home Monday morning.

George Penn and family have left for Blackney, Alberta, where Penn takes charge of the C. P. R. station.

Miss Charlotte Earton has taken a position in the dry goods department of the Coleman Mercantile Company.

The regular monthly meeting of the Board of Trade was held at the council chamber on Monday evening, when some local matters were discussed.

Representatives of the Conservative party from the various towns of The Pass held a consultation in the office of Percy Willmott on Tuesday evening.

Alex. Cameron visited Creston Monday and Tuesday, returning to town Tuesday evening. Mr. Cameron reports flourishing conditions at that fruit raising centre.

Lorne A. Campbell, president of the McGillivray Creek Coal Company, has been spending the past few days here in connection with the Company's business.

The wife of Robert Holmes died on Saturday last of heart failure, at the age of 42 years. Mr. Holmes leaves a husband and six children to mourn their loss.

Funeral took place at the Coleman cemetery on Saturday afternoon and was largely attended, Rev. J. G. Bompas officiating.

George Murr, who for the past year has been clerk and accountant for the Coleman hotel, left on Sunday evening to take a position in the office of the Lethbridge Brewing & Malting Co., Lethbridge. Before leaving, Mr. Murr was tendered an informal banquet by his intimate friends. His many friends wish him every success in his new work.

St. Albans Church folks are advertising a good performance to be given in the Dramaland theatre on Wednesday evening, the 18th. The entertainment will consist of a special series of moving pictures, interspersed with songs and recitations by local talent. The proceeds will go to the men's institute fund, and in view of this commendable object the patronage should be large.

At The Sanatorium

The following registered at the Rocky Mountain Sanatorium during the week: T. D. Brown, Mr. and Mrs. R. H. Munich, Sam. Kutz, G. McLaren and wife, Calgary; Inspector and Mrs. Belcher, S. A. Fraser, Pincher Creek; A. F. McComb, A. B. Tritter, Neil Morrison, A. K. Lavan, H. C. Skinner, Fernie; T. Lambert, John F. Sterling and wife, Edmonton; T. S. Sutherland and wife, Miss H. Roberts, Mr. and Mrs. R. E. Mercer, Neil McCall, Macleod; H. H. Johnson, Collingwood, B. C.; F. H. Smith, H. F. Lloyd and wife, H. Kehoe, Spokane, Wash; John Taylor, Moyie, B.C.; W. N. Smellie, W. F. Terrier, Toronto; Mrs. C. Faure, Coleman; G. B. Vandusen, R. W. Thompson, Chicago; F. E. Wilson, Dubuque, Iowa; A. Young, Soo, Michigan; Francis Aspinall, A. C. Pitcher, Lethbridge; Thomas Milligan, J. A. Gillespie, Vancouver; M. Johnson, Taber; G. A. Jackson, Victoria; James Sinclair, Redcliff; W. E. Caine, Cranbrook; G. S. Craddock, Nelson; A. McCulloch, W. Watson, Coleman; Sam. Richards, Corbin; Ed. Willey, Fernie; Ralph Smith, Lacombe.

Happenings in and Around Bellevue

Hugh McDonald and Robert Connolly were Stampede visitors.

W. J. Cole took in the Bailey-Allen fight and the Stampede at Calgary last week.

Jas. Fisher has stopped work in the mine here and will work at Passburg.

John Brooks has removed his residence to the house vacated by George Davey.

Gus Rudd returned on Sunday from Moyie, B.C., where he has been attending school.

Herbert Noble and family have moved back to Fernie after a ten months' sojourn in Bellevue.

George Davey and family went to Fernie B.C. on Friday last to take up their residence there.

Pay-day does not come this week in Bellevue as in the other mining camps, but will fall on Sept. 20th.

Mrs. S. Humble was confined to the house for a few days, owing to her having contracted a severe cold.

Mr. Radford and family have recently come in from Nova Scotia and are occupying the house vacated by Mr. Johnson.

Mr. Johnston and family have moved to Calgary and are taking up their residence with Mr. Johnston's brother in the East end.

Watch for announcement of the big concert to be held in the Socialist hall on the evening of Sept. 23rd. Proceeds in aid of the new institutional church.

The little son of Charlie Burrows who recently underwent a severe operation for appendicitis, was removed from the hospital to his home on Friday in a much improved condition.

The local mine management have been forced to lay off quite a number of men because of the lack of cars to remove the output of coal. It is thought that having fewer men at work, it will necessitate fewer idle days.

Rev. Mr. Irwin will preach next Sunday night upon the subject "Does God Exist?" It was stated last Sunday evening that if God is not a factor of consciousness His existence cannot be proven by any system of prayer or logic. Mr. Irwin will try to prove that God is a factor in consciousness and can be known as an actual reality. Discussion is invited at the close of the regular service.

The citizens of Bellevue were alarmed the other evening by the shrieks of a dog which ran through the town having been shot in the mouth. It was found out afterward that an effort had been made to put an end to the canine, but the charge had failed to do the damage completely and the dog escaped with a severe wound. He was finally dispatched with an axe and duly deposited in mother earth.

We are interested to note the reference in last week's issue of this paper by the Hillcrest correspondent, to the dangerous condition of the bridge between Bellevue and Hillcrest. The importance of having the bridge repaired has been felt by the Bellevue people for some time. We hope that the proper authorities will take this matter and assure the safety of those who carry on the large traffic between the twin camps.

On Friday morning last a strange incident occurred at Hillcrest station while an engine was waiting for a freight train. The engineer, John Schalls, faintly and fell out of the cab of his engine and was discovered by his fireman and C.P.R. agent Perry lying in an unconscious condition. He was revived but fainted away again and was removed to Frank hospital when he was put under the care of Dr. McKay. It is reported that he is not dangerously ill and will be out in a few days.

WYNN'S FLY PADS

Persistently, this pest will be tremendously reduced.

Language and Religion

The man who tells this story claims that it was an Irishman. At any rate the language makes a fine bull.

A preacher had delivered his prize sermon, exhorting his hearers to emulate the religious life and secure the attractions of wealth and late supper. He concluded with this centre: "My brethren, let not this world rob you of a peace which it can't neither give nor take away."

A Feminine Misunderstanding

Upon Sinclair, who is an advocate of divorce when married people are unhappy, tells this story:

A woman in one of the large cities of this country was one day called out to go to a spiritualistic seance in order to deal converse with her dead husband.

My dear George, said the widow, in tears, are you happy where you are?

Happier than I was on earth with you, George answered with alacrity.

This was something of a poser, and the widow paused to decide what she should ask next.

What is it like in heaven, dear George? she finally asked.

Heaven! exclaimed George. I'm not in heaven.

An Oil of Merit—Dr. Thomas' Electric Oil

Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the curative qualities of certain oils as applied to the human body. It is a rare combination and it won and kept a public favor from the first. It is one of it will carry conviction to any who doubt its power to repair and heal.

The Champion Magazine Reader

Editor C. Knox, the secretary of state, is an omnivorous reader. He subscribes to more than fifty magazines. In addition to this, he buys all the new books and the latest editions of old works that he can get his hands on. At his bedside he has an adjustable electric light and a collection of his own patent which, like a tray, holds a large volume while he reads it.

Why not?

A lady who gave herself great airs of importance on being introduced to a gentleman and with a show of much indifference. I think I have seen you somewhere.

Very likely, replied the gentleman with equal sangfroid. I have been there frequently.—Philadelphia Ledger.

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the two following, which are heart-felt expressions of gratitude for restored health:

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I don't recommend it for nervousness and indigestion."—Mrs. HENRY CLARK, Glanford Station, Ont.

Chesterville, Ont.—"I heard your medicines highly praised, and a year ago I began taking them for falling of womb and ovarian trouble. My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous some times that I could not bear to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated. "I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial."—Mrs. BRUCE J. MARTIN, Chesterville, Ontario, Canada.

W. N. U. 909

QUESTION OF OWNERSHIP

Inspection on Barrel Proves It Genuine Relic of Notorious High-wayman.

London.—Dick Turpin—a simultaneously butcher's apprentice, cattle lifter, anticleric, house-breaker, highwayman and horse thief—the hero of our childhood, has been proved undoubtedly owner of the pistol just discovered by workmen in the ceiling of the Reindeer Inn at Brambury.

The pistol, undoubtedly the date 1735, said the manager of Messrs. Westley, Richards & Co., Limited, gunmakers of New Bond Street, where the pistol is now on view.

You see that it is a double-barreled horse pistol with flint locks, smooth-bore barrels, 16 gauge and of the exact pattern used during the seventeenth and eighteenth centuries.

We have had the assurance of an expert enquirer that the inscription on the barrel—Presented to Dick Turpin, at the White Bear Inn, Drury Lane, 1735—is also of that period. The workmanship throughout is very fine. The handle is of English walnut. The finish of the barrel is inlaid with gold, and the band around the breech end of each barrel is gold. It probably cost about £100 originally.

The pistol is marked in four places in small gold inlaid panels. Baker, London, who was the predecessor of the well known Ezekiel Baker, pistol maker to the prince of Wales.

The history of how it came to be found in the Reindeer Inn may be explained by the fact that history tells us of an occasion when Turpin stayed at the inn and was shot through the hand here.

Of course the question of ownership has arisen. Since the pistol was discovered on the upper side of the plaster ceiling above the historical Globe Room, at the back of the Reindeer Inn at Brambury, claims have been put in by Messrs. Long and who have purchased the ceiling, by the lease of the property as occupier, and also by the freeholder of the property.

A Girl Mine in the Kitchen Stove

T. A. Snider, of Cincinnati, who piled up a fortune by the use of his name on catnip bottles, got all of his money because he realized that Mrs. Snider was a grand and gorgeous cook. She made him some catnip shortly after they were married, and he remarked:

We ought to get a fortune out of this. Let's sell it.

They did sell it, and built it up into a big business thereby annexing the fortune.

A Hunter dealer contracted to supply a lot of lumber to a stranger.

On looking it over he found it full of knot holes and told his customer about it.

You may not want this lumber, he said.

Why not?

I have to be honest with you. It is full of knot holes.

Oh, I see, he said, I have been told that.

I'll take it, he declared. This lumber is to go around some baseball matter; any knot holes won't hurt me.

The hunter dealer was a kid myself once.

The Great American Game

Judging from what's going on, remarked the man with the gray hair and the hard heart, American politics is a nice combination of the best skill of the knife thrower, the ventriloquist, and the mud lark.

Minard's Liniment Cures Diptheria.

When Nagel Had to Ride

Charles Nagel, secretary of the department of labor, is a tall man, resembling in his build an isolated pine tree on the top of a hill. He was to Washington one night from New York, he got lost in the labyrinth and was surrounded by a group of men to whom he paid absolutely no attention as he intended to walk the fourteen block to his office.

The hackmen cried as he went to work of such cries as:

Take you right up!—Take you to the New World!—Take you to the Raleigh!

The statesman walked straight ahead without even looking at his besetters.

If you want a cheap hotel, jump right in, said one mother driver.

Still Nagel walked on unheeding.

Finally a Jehu addressed him thus: Don't you get lost, you fool! Take you up there in a minute.

At this Mr. Nagel laughed, and got out of the hack.

A Safe Pill for Suffering Women.

The secluded life of women which permits of little healthy exercise is fruitful cause of derangements of the stomach and liver and is accountable for the pains and lassitude that so many of them experience. Farmine's Vegetable Compound is a correct regulator of the digestive organs and restores health and vigor. The most delicate woman can use them with safety, because their action, while effective, is mild and soothing.

Cable—Has Jones a good memory?

Steve—Should say he has. Why, he can name you the last six vice-presidents of the United States.—Cincinnati Enquirer.

Safe Anyhow

Professor—The average American girl is poorly educated.

Girl Graduate—You think so?

Professor—Yes, but there is one consolation, the average American boy will never find it out.—Baltimore.

DICK TURPIN'S PISTOL

Rockefeller and His Rocks

Just because John D. Rockefeller has made more money than he can count without the aid of nineteen clerks and forty adding machines, not to mention a well-trained corps of coupon clippers, there are many people who come forward these days with stories to show that John, now famous for his wealth, wigs and wit, was once about the cuttest person that ever happened when it came to financial strategy.

According to this latest narrative, Rockefeller told a close friend—and that close goes both ways—one morning that he wanted to borrow five thousand dollars and that he must have it in order to save his business. The friend went downtown in the course of his work, and pretty soon met a big banker.

Well, said the banker, if you see Mr. Rockefeller this afternoon, you would tell him that I have found a place to put that ten thousand dollars which he asked me to loan for.

The friend assented like a godfish, and proceeded on his way, encountering another of the town's leading bankers.

By the bye, said the banker, when you see Rockefeller this afternoon, please tell him that I have found a man who wants to borrow that ten thousand dollars.

The friend staggered on, and met a third banker, who repeated what the other two captains of finance had said. Then he went back and found Rockefeller.

John, he said, in astonishment, when I left you this morning you told me you had to borrow ten thousand dollars, and all day bankers have been telling me that you asked them to lend you ten thousand for you.

Well, well, smiled Rockefeller, that's fine! I suppose I may safely assume now that my credit is established in this town. I'll just step out and borrow that five thousand I need.

On Lady O'Looney

Here lies the body of Lady O'Looney, great niece of Burke, commonly called the noblest. She was a very passionate and deeply religious, also she painted in water colors and sent several pictures to the Vatican. She was first cousin to Lady Jones, and of such is the Kingdom of Heaven.

FEARFUL HEADACHES

STOMACH BAD, NO APPETITE, WAS LOSING WEIGHT AND STRENGTH

Wonderful Change, When Health Was Restored by

DR. CHASE'S NERVE FOOD

Headache is a symptom and not a disease in itself. It acts as a danger signal to warn you of serious trouble. By reading Dr. Donner's letter you will be satisfied that there is no treatment to be compared to Dr. Chase's Nerve Food as a means of building up the system and removing the cause of headaches, sleeplessness, indigestion, etc.

Mr. Charles Donner, Kleinburg, Ont., writes: "I wish to communicate to you the great cure I received from Dr. Chase's Nerve Food. For over two years I suffered from fearful headaches, my appetite was always poor, no stomach bad. I took medicines from physicians, but the headaches persisted, and I was rarely free from them."

"Reading about Dr. Chase's Nerve Food, I began using it with little idea that I would be benefited. I had become thin and weak, but the very thing I needed was a good diet and feel like a new man. The headaches have disappeared, my appetite is good and digestion excellent. I write this letter in hope that other cases of Dr. Chase's Nerve Food and be cured."

Dr. Chase's Nerve Food, 60c a box, 6 for \$2.50, all dealers or Edman & Son, Bates & Co., Limited.

"I thought you had a trained nurse to wait on your wife?"

So I have.

And now you're looking for more help?

Yes, I find I have to have three or four more. I have the trained nurse.—Detroit Free Press.

Soothing

She—What was it the choir just sang?

He—From the appearance of the congregation I think it must have been some kind of a prodigy.

I bought a horse with a supposedly incurable ringbone for \$20. Cured him with \$1.00 worth of MINARD'S LINIMENT and he was cured for \$35.00. Profit on Liniment, \$34.00.

MOIRE DESROCHES Hotel Keeper, St. Phillips, Que.

Mrs. Bacon—My husband threw his alarm clock at a cat in the back yard last night.

Mrs. Egbert—But he never hit the cat. I'll bet.

Mrs. Bacon—No, but he says he got rid of one nuisance, anyway.—Yonkers Statesman.

LET MOONEY DO IT

NO BURNED BREAD
NO SCORCHED BISCUITS

No need to apologize to family or guest when MOONEY does it. MOONEY'S BISCUITS are always right — every biscuit inspected before it is packed—and they are as fresh as the product of your own oven.

MOONEY'S PERFECTION SODA BISCUITS

are the great favorites for every day use.

They are made in the big sanitary factory in Winnipeg and come to you in air-tight packages or in sealed tins as you prefer.

"LET MOONEY DO IT"

Will you be one of the 108 farmers who will receive our Prize Contest checks?

THERE will be twelve cash prizes in each of the nine provinces (108 in all) in the 1912 Prize Contest for Canadian Farmers. The 1911 Contest was so successful in awakening interest in the use of Concrete on the farm, that second contest, in which three times as many prizes are offered, was decided upon for this year.

The Contest this year is divided into three classes, "A," "B," and "C," and there will be four prizes in each class. (First prize, \$50. Second prize, \$25. Third prize, \$15. Fourth prize, \$10.) Thus there are three \$50 Prizes, three \$25 Prizes, three \$15 Prizes, and three \$10 Prizes, for each province.

DESCRIPTION OF CLASSES

In Each Class there will be First, Second, Third and Fourth Prizes (\$50, \$25, \$15, and \$10) for Each Province.

CLASS "A"—Prizes to be awarded to the four farmers who use most "Concrete" on their farms in the year 1912.

CLASS "B"—Prizes to be awarded to the four farmers who use most "Concrete" on their farms in the year 1912.

CLASS "C"—Prizes to be awarded to the four farmers who use most "Concrete" on their farms in the year 1912.

Don't think that you must use a large quantity of cement in order to win a prize. The quantity of cement used does not count in Classes "B" and "C." Many of last year's prize winners used very little cement.

When you enter the Contest, you have a chance to win a cash prize of \$10 as well as the certainty that you will add a permanent improvement to your farm. If you haven't a copy, be sure and ask for our book, "What the Farmer Can Do With Concrete." It will not only tell you all about the use of concrete on the farm, but will tell you all about the use of concrete on the farm.

Just write your name and address on the enclosed coupon, or use a post card and we will send you a copy of our book, "What the Farmer Can Do With Concrete," and a copy of "What the Farmer Can Do With Concrete."

Thus there are three \$50 Prizes, three \$25 Prizes, three \$15 Prizes, and three \$10 Prizes, for each province.

DESCRIPTION OF CLASSES

In Each Class there will be First, Second, Third and Fourth Prizes (\$50, \$25, \$15, and \$10) for Each Province.

CLASS "A"—Prizes to be awarded to the four farmers who use most "Concrete" on their farms in the year 1912.

CLASS "B"—Prizes to be awarded to the four farmers who use most "Concrete" on their farms in the year 1912.

CLASS "C"—Prizes to be awarded to the four farmers who use most "Concrete" on their farms in the year 1912.

Don't think that you must use a large quantity of cement in order to win a prize. The quantity of cement used does not count in Classes "B" and "C." Many of last year's prize winners used very little cement.

When you enter the Contest, you have a chance to win a cash prize of \$10 as well as the certainty that you will add a permanent improvement to your farm. If you haven't a copy, be sure and ask for our book, "What the Farmer Can Do With Concrete." It will not only tell you all about the use of concrete on the farm, but will tell you all about the use of concrete on the farm.

Just write your name and address on the enclosed coupon, or use a post card and we will send you a copy of our book, "What the Farmer Can Do With Concrete," and a copy of "What the Farmer Can Do With Concrete."

THE VALUE OF FIRELESS COOKERS

A FIRELESS cooker is invaluable to a housekeeper, especially in winter. The cookers are now so perfect and inexpensive the woman who does not own one is actually at a disadvantage when labor saving methods are considered. Cooking during oppressive heat in summer is avoided. Foods can be started at a convenient moment and yet be in readiness for the most urgent. Healthful foods requiring long cooking are made practicable for the daily menu, and the weight of the cooked product from a pound of raw material is much increased. The fireless cooker is appreciated for the cheaper cuts of meat. Since tonight must be cooked for a long time at a low temperature the cooker is a most excellent medium for this purpose. Steaks and so called boiled meats seem to have a better flavor when cooked in the cooker than when cooked on the stove. Beef, mutton and lamb cooked in this way may be served as braised meat, as a stew, as minced meat warmed in liquor and served on toast, as wet, dry and browned hash, as meat pie, meat turnover and other ways in which cooked meats are reheated. Five pounds of meat could be served for two in ten different ways, serving half a pound at each meal.

Excellent soup can be made from the leftover carcass of a fowl, from the neck piece of lamb or from any leftover beef bones. Put in a pot of water. Place in the kettle of the fireless cooker, cover with cold water, place on the stove and bring slowly to a boil, then put in the cooker overnight. In the morning remove the meat and bones and use the liquor or stock, to be reheated and flavored according to the style of soup desired.

Breakfast cereals are the most abused foods in ordinary cookery. Rarely do they receive the long, slow cooking which their nature demands because of the early rising this would necessitate. The fireless method delivers the full value of the nutrients with a minimum dependence upon the cook. Fruit is oftentimes a serious problem on account of expense. The fireless method makes available many dried and evaporated fruits, which can be obtained reasonably at all seasons. Delicious compounds can be made which rival the best preserves in appearance and flavor, in no respect suggesting those of the store. The fireless method makes a jelly, marmalade and liqueur and charged with the flavor which characterizes the fruit in its prime state.

A Beach Costume

Beach costumes have given this green linen frock much distinction. It is increased by a collar of white plaid and white cotton bottom of white hat and veil and white buckskin buttoned boots complete the dainty costume.

A FEW yards of inexpensive cotton ball trimmings have given this green linen frock much distinction. It is increased by a collar of white plaid and white cotton bottom of white hat and veil and white buckskin buttoned boots complete the dainty costume.

The Big Becoming Hats of the Midsummer Season

MIDSUMMER hats are immense. They are veritable wheels and actually measure much larger than the wheel of a perambulator. Much of their effectiveness, however, depends upon the angle at which they are pinned upon the hair. It is not always easy to succeed with this angle. There should be laws of latitude and longitude supplied by the milliners, whereby the purchaser of their creations might learn the exact angle which the hat should bear to the line of the neck. This little attention would put an end to much of the disappointment which arises upon putting a "dear of a hat" upon one's head for the first time at home.

Big, low crowned, drooping brim

is used for the brim facing, bows, etc. Shows of color in satin and in tulle, velvet in black chintilly are effective, as are the facings of color—green, for example—valued by softy striped black tulle of chintilly, the outside of the hat being trimmed in a great bow or ruche of the lace.

A stunning big leghorn hat trimmed recently by a clever girl had its brim covered with the hair's chintilly. A black lace parasol top, the old fashioned carriage parasol tops that were not much larger than a 1913 picture hat. The center of the lace cover was cut out sufficiently to fit about the low round crown and spread out over the wide drooping brim. Heading the lace ruffle was a curious twist of mottled blue velvet ribbon, topped by a

Speaking of mottled blue coloring the chic Watteau picture hat to be seen among the cuts is of this shade of blue and apricot pink, combined with white. The crown of pin tucked battles and lace is mounted on a drooping rim of lace, finished at the edge with a broad facing of mottled blue straw. This wreath of small silk roses is in shades

PICTURE HAT IN WATTEAU COLORING.

ADMIRAL CHAPEAU, TRIMMED FORE AND AFT.

shapes, all in straw or in straw with crown covered with tulle, lace or other contrasting fabrics, are worn for everything from morning toilet to formal dress, according to the degree of elaboration, or general character of the trimming.

For dressy hats much chintilly lace

wreath of tiny pink roses without foliage. The effect was very dainty and girlish, and the coat was a mere trifle. With this hat was worn a charming little frock of mottled blue voile over white and the usual French touch was contributed by the black velvet

of apricot pink and gray green, the pink predominating, and two of the flat "tomato" roses are caught in the softly knotted streamers of blue and gray shot tulle ribbon. This hat was designed for a dark haired and blue eyed maid. The mottled blue brim facing deepens the blue of the eyes, while the

THE NEW FLANGE BRIM WITH POMPADOUR HAT IS GAY AND DASHING.

inner brim facing of lace throws the wavy dark hair into relief.

Big hats faced with flowered pompadour silk or velvet with roses clumping under the brim are very smart this summer. One of these models is pictured faced with jay velvet, with a single handsome plume as the only trimming.

But perhaps the most eccentric large hat of the season is called the admiral. This nautical piece of headgear is nothing more than a simple shepherdess' lace, the fore and aft trimming giving the sailorlike suggestion. The hat is made of jay tulle, trimmed with plain tulle plaiting and the oddly arranged wreath of roses.

Though most women are fond of the drooping brim which shades the face

so flatteringly, the newest of the mid-season shapes have their brim lifted. The latest model with an uplifted effect is the flange brim. This hat has for a foundation a cap of leghorn which fits the head snugly. Over this is a gathered frill of shadow lace, stiffened with a wire hoop at the edge and lifted flange fashion, to show a cluster of flowers tucked under the loops of lace. This hat accompanies a frock of striped tulle, with which are worn long embroidered silk gloves and buttoned boots of white buckskin.

In smart millinery each face is carefully studied so that the beauty of the features may be enhanced by the sweep of the brim, and the shapes and colorings of most of the hats of the season are exquisitely lovely.

CATHERINE TALBOT.

Care of the Hands In Summer

DURING the summer months the woman who is anxious to have really pretty hands will find her best chance to beautify them.

True, there is the possibility of freckles and sunburn to mar their whiteness, but with care and a simple, inexpensive lotion either of these can be ward off and the redness and roughness caused by the sharp winds of summer quickly removed, leaving the hands white and soft, with dainty nail trim.

To remove freckles from the hands a lotion can be made up for a few cents at home by mixing one-half ounce each of ordinary toilet vinegar, Jamaica rum and elderflower water, together with one and one-half ounces of strained lemon juice. This should be applied with a small sponge to the backs of the hands several times during the day and at night and a dusting of powder given when the lotion has dried on the skin.

During the summer months the girl whose hands freckle easily should apply this lotion every morning and night and so eradicate the harm done each day. By doing this she will keep her hands in perfect condition during the whole season.

Lemon juice, whether mixed with rosewater or applied pure, will be found the most valuable aid in whitening the hands and making the skin soft and smooth.

Few women realize the value of lemon juice as a cosmetic, especially in the care of the hands. Applied with an orange stick to the nails it will remove stains, soften the cuticle and loosen it, making the nail at the base more noticeable.

Red hands are often due to other causes than those directly influenced by the weather. Sometimes they are caused by wearing gloves which are too tight and small and at others by a flow of blood to the hands. When the latter is the case it will be best to exercise the hands by working them backward and forward from the wrist. This will restore the circulation to its normal state and the redness will disappear. When tight gloves are responsible for the redness the remedy usually lies in discarding them. Some women imagine that a small glove makes the hand appear smaller. This is by no means the case. Loosely fitting gloves are not only better for the hands, but they are a small effect, long as they are not extremely large and are much more comfortable in warm weather.

To remove tan from the hands a cream should be applied at night and gloves about three sizes too large worn for a couple of weeks. To make a cream take two ounces of castile soap, two ounces of olive oil, one ounce of mutton suet and one ounce of alcohol.

Melt the soap after shredding it into small pieces, then melt the soap, clarify it and add to the soap, warm oil and add this next, and finally the alcohol, beating all together to a cream. Place in a jar and apply to the hands, rubbing the cream in with an upward movement from knuckles to wrist.

To keep good health it is very necessary to sleep well and comfortably, so every housewife should make a point of attending carefully to the bedding.

If the mattresses have become hard and lumpy, the buttoning loose or the ticking very soiled, they should be sent to the shop for cleaning. It is possible to take the mattress out of doors and lay it over a heating stove, or on each side with a carpet beater.

To Take Care of Beds and Bedding

To keep good health it is very necessary to sleep well and comfortably, so every housewife should make a point of attending carefully to the bedding.

STRIPED MATERIALS ARE POPULAR THIS SUMMER

STRIPED materials this summer are in fashionable favor. As a rule, stripes are more becoming than figured designs or even plain fabrics, for they give length and slenderness, the two most sought after effects this season. There is no hard and fast rule as to the size of the stripes, and it is astonishing how many different widths there are in the season's materials. Often different widths of them are used in the same gown.

Black and white is most effective. Black and white are also colored stripes that are smart which are in one tone of color, but in different shades, or two knotted streamers of blue and gray shot tulle ribbon. This hat was designed for a dark haired and blue eyed maid. The mottled blue brim facing deepens the blue of the eyes, while the

Artistic New Needlework

THE girl who likes work that has a permanent value should start this summer some butterfly or basket square, which are joined into a broad centerpiece with a lace insertion run at right angles. The centerpiece, when finished, is bordered with lace to match, put on flat. The squares are made of heavy white linen, five or six inches each way, and two or three are used to a side, according to the desired size.

The work is done in white mercerized cotton entirely in eyelet stitch for the butterfly, save for the body, which is in satin stitch. The basket for the other square may be outlined or worked solid with the floral sprays in eyelet embroidery.

A centerpiece that should have everlasting style is worked in white mercerized cotton on heavy linen of fine grade. Its edges have alternate ground scallops and a deeper curve of seven small ones. In the center of each shallow curve is a tall, narrow empire basket worked in satin stitch and filled with conventionalized daisies and foliage in eyelet. In the deeper curve is a semicircle of eyelets with an eyelet and foliage above it, while opposite each point are a six petalled forget-me-not and three leaves worked in satin stitch. This is connected with the semicircle of eyelets by scrolls pointing toward the basket.

The girl who likes effects with little work will enjoy one of the round or oval centerpieces with a border of daisy and foliage above it, while opposite each point are a six petalled forget-me-not and three leaves worked in satin stitch. This is connected with the semicircle of eyelets by scrolls pointing toward the basket.

Hanger for Gowns

CUT a piece of heavy cardboard seven or eight inches long and eight inches wide and shape one side of it like a coat hanger. Now punch a hole in the center of the hanger from the top and tie a piece of ribbon or tape through it to make a loop to hang on a nail. The lower edge make two holes six inches apart and either insert large safety pins or sew in hooks to hang the skirt of your gown to.

This makes an inexpensive and very satisfactory frame to hang your summer lingerie or linen frocks and waists upon, keeping them fresh for a long time after they have been ironed.

These hangers may be padded with raw cotton and covered with fancy silk flowered silkenings. A delicate sachet powder sprinkled over the cotton adds greatly to their attractiveness and perfume the gown as well.

The New Wraps

FOR daily wear in summer as well as winter, with motoring and sports of all kinds, one must have a wrap which is both smart and comfortable. There is a new wrap which has found many supporters, inspired a little by the gowns worn by Italian dancers and forming a point in the center of the skirt and having a cut in the skirt. It likes garments fasten on the left side.

AN OUTDOOR CRADLE.

four provinces, only 28 went to

British Columbia and 239 to

Manitoba, while Saskatchewan re-

ceived 2242 and Alberta 1479.

Of the above all countries were

represented excepting Newfoundland,

South Africa, China, Persia and

New Zealand, while 1087 of the

total number of entries made

(3988) were from United States.

Before the Curfew By-Law

passed Blairmore was clock full

of "fourteen-year-olds," now

there's not one to be found.

Gee, don't the time fly!

Now that the Curfew By-Law

has passed, we may have the

pleasure of seeing the streets of

Blairmore clear of youngsters

after 9 p.m. The law provides

that children under the age of

fourteen years shall not be

found on the streets or in public

places after 9 p.m., unless in

the custody of parents or guardian,

or production of satisfactory

excuse. Listen for the bell!

Famous Play By

Well Known Troupe

For one night, Tuesday, September

17, the Blairmore opera

house will ring with the kind of

laughter that makes fat people—

the occasion being the presentation

of the standard comedy-dramatic

success "Zeke, the Country

Boy," by the Bell Company, strengthened

for the tour of this play.

"Curly" Butler will do "Zeke"

with his songs and witticisms; C. G.

Butler, known all over the West

as one of the finest of violinists,

will appear as the "Trick

Fiddler," and the rest of these well

known players are in excellent

roles. The play is seven years

old, and has been played in almost

every city on the continent. Bell

carries a full scenic outlay. The

play is far from being all comedy,

for the dramatic situations are

very pronounced. Undoubtedly

one of the largest turnouts ever

witnessed here will see the play—

especially as prices are to run up

to seventy-five cents only.

Accident At Coleman

Gustaf, the three-year-old son

of Mr. and Mrs. A. Delien, was

seriously, if not fatally, injured at

Coleman on Thursday afternoon

last. The little fellow had wandered

out to C.P.R. right-of-way,

while playing, and was struck by

the switch engine at work in the

Happenings in and Around Blairmore

BORN—To Mr. and Mrs. C. H. McLeod, Sunday night, Sept. 8, a son.

Mr. McDougall, manager of the Fernie Lumber Co., was in town Monday.

Misses Shepherd and Latta will hold their fall millinery opening on Friday, September 20th.

P. Stoly, of Okotoks, is in town this week, and purposes opening up a shoe repairing establishment.

Mrs. F. S. Kafory arrived from Fernie on Sunday night, accompanied by her husband and daughter.

The attendance at the local churches was smaller than usual on Sunday last, owing to last week's distribution of Eaton's catalog.

FOR SALE OR RENT—Ten-roomed house, suitable for boarding or rooming house. For particulars apply to L. H. Putnam, Blairmore, Alta.

The new concrete sidewalk around the Alberta hotel is certainly a great improvement and enhances the approach to the hotel very much.

Sunday night's express became disabled at Coleman. A relief engine was summoned from Frank and the train was nearly two hours late in consequence.

S. H. Turner received injuries in the local mine last week by a quantity of loose material falling on him. He has since been confined to his bed.

Miss Magill, who has been relieving Miss Sun-trum as manager of the local telephone exchange for the past couple of months, leaves for Edmonton next week.

Superintendent Uren, of the C. P. R. Cranbrook division, has been transferred to Calgary, and is succeeded at Cranbrook by A. C. Harshaw, formerly trainmaster at Calgary.

PICKED UP—On Victoria Street, Blairmore, on Wednesday afternoon, a lady's black hand-bag. Owner can have same by applying to C. V. O'Hara at the Blairmore hotel and proving property.

Central Baptist church will hold a reception in the Baptist church, in honor of the teachers of the public schools, on Friday, Sept. 13th. Members of the church and congregation are invited to be present.

Three more cars of machinery have just arrived and are being unloaded for the Blairmore Brewery. The machinery will be installed with all haste, in the hope of having the plant in operation by October 15th.

The Robekabs of Coleman intend giving a social in the Odd-fellows hall at Coleman on the night of September 17th. Quite a number of invitations have been sent out and an enjoyable time is expected.

"Zeke, the Country Boy," will appear at the Blairmore Opera house on Tuesday night next, in "The Murder in the Gaslight," "The Den Scene," and "The Rude Fiddler." Popular prices 25, 50 and 75 cents. Don't miss it.

Central Baptist church will hold their Anniversary Concert in Blairmore opera house on Wednesday evening, Sept. 18th. Bills and programs will be out in a few days. Every effort is being made to make this a first class concert in every particular.

Houses are at a premium in Blairmore at the present time, and quite a number of applicants have failed to secure living quarters. Here is the best opportunity in Alberta for anyone to invest their surplus and be assured of big interest on their investment.

H. G. Bigelow had a letter returned to him from the postal department this week, which had

An Idyll of the Mosquito

Did you ever pick raspberries? I tried to once but my effort ended in deep meditation and the result was my decision, that I had a mission to fulfil. I owed the months before me to humanity. With this noble resolve before my mind I decided to devote my time to one of the most serious missions to human happiness that exists in the world today. The mosquito. I was not long in discovering that they have brains (some have a share of mine now.) They think, have a language, religious forms and ceremonies, even a Masonic order. But one thing they sadly need is a temperance organizer. Their religion is to draw blood and they have a Dance of Anticipation, and a Dance of Triumph which they perform before and after, like the atonement rites.

The way of my discovery was thus. I came upon a bush loaded with luscious ripe fruit. I stooped to bite—and got bitten. Again and yet again I tried. I got two bites to every berry. I bit the berry and the mosquitoes bit me. At last I sat down upon a stump and watched these interesting little creatures which now came about me in droves. Their beautiful gazy wings glittering as they flitted about me, on duty and as I watched I became conscious that there was method about all this. One awaying gaily toward me hummed "I make for her eye." "Try the other one Mick I'll try back of her ear." I shook them away, and heard a bear-broken I am behind me "she don't like us." And so the conversation went on. None had as yet succeeded in getting a good bite and they were transmitting for reinforcements. They came about me in myriads, and at last I surrendered. They then proceeded to lay out a motel city. My arms were the parks. A freckle with a long scratch behind it, stood for the land stand and armory, a wasp bite, not yet old, was the court house, with a fourteen foot fence. And last but not least the bone at my wrist was THE tree. Some old mosquito bites made benches, hill, shrubbery, etc. A live couple alighted under the tree-branches, strolled round and all drunk ambled. It was then I discovered they have same notions of games as we, for two of them drank from the same place. After they drank their fill and performed their "Dance of Triumph" (I'd almost forgive them if they were not so happy over it), they departed to hunt up their relatives and friends who had not discovered the motel city. They are very particular as to flesh and are very fond of thin people, which proves the familiar with the proverb "The nearer the bone the sweeter the meat."

Yes, they are very interesting things to study. I went to pick berries and remained to study the mosquito. And in trying to benefit

been cut open at both ends. The letter was addressed to his wife in Ontario, and the riffer no doubt was in quest of valuables. Mr. Bigelow has forwarded the letter on to the inspector of postal revenue for investigation.

The marriage of Miss Gladys Roy to Okie Huss was solemnized at the residence of Joseph Holloway on Wednesday evening by the Rev. J. F. Hunter.

F. M. Thompson Co. closed their little store on Saturday, all the stock being removed to Blairmore. The little postoffice closed on Saturday last.

Frank Anderson goes to Calgary where he has secured a situation, and G. H. Wycherley has taken over the Passburg mission work.

The sermon subjects in the Presbyterian Church on Sunday will be as follows: at 11 a.m., "The Trinity," and at 7-30 p.m., "Excuses." At 2 p.m., there will be the usual Bible School. After the Bible School at 3 o'clock, there will be meeting of all those interested in the Adult Bible class movement. There is not a single side of life that this "movement" cannot reach, so this meeting should be of interest to everybody. The Organized Bible class meets for definite Bible Study, and then through its Social efforts, practices just as definitely all the teachings of the Bible.

The Rocky Mountain Sanatorium at the Famous Sulphur Springs FRANK, - - ALBERTA

my suffering friends I lost three pounds of flesh. That is all I have discovered as my research was abundantly aided by a snake which caused me to make a rather hasty and noisy escape, from the field. Darkness fell, but my gassy winged attendants continued their evening amusements. I grew tired of research and sought repose. I wanted sleep. I went to bed and went to scratch—scratch—scratch. Turned and twisted, covered and uncovered my head curled up in a ball and stretched out again, and scratched. It grew maddening. I laid a deep plan for revenge. At sunset that day I smeared my face, arms and hands with a fragrant cold cream and went back to the berry field stump and waited. They came at last at dusk, proclaiming that the day was dead, scattered about me their beautiful wings crumpled, and bodies bruised and broken in death by ten thousand mosquitoes. I left them there with a strange satisfied feeling in my heart and a lovely itch in my flesh and as I lovingly caressed my jar of cold cream, and scratched. I decided to write what I had discovered, and when the enormous royalties had sufficiently increased my bank account and Jack Johnson had no more white hopes to conquer, he could expand his superfluous strength in scratching mosquito bites for a which services I would gladly pay him twenty-five cents per hour, Sydney Post.

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by all dealers.

Notes From Burmis

A. P. Hughes, Manager of the Union Bank at Passburg, was a visitor to town on Monday.

Tom Duncan, Mine Host of the Passburg hotel, was looking up old acquaintances last Saturday.

A. Corrie, of the Western Canada Wholesale, of Fernie, B.C., was a business visitor to town last week end.

Harry Fisher received a slight injury to his leg with a piece of cap rock while working in the mine last Saturday.

The horse race between the respective homes of G. Carson and R. Glover was run off last week end and resulted in a win in favor of Carson's horse.

Slam Barry, mayor of Police Plaza, paid a casual visit to town on Sunday, and after being shown around town by the boys, high jinks were participated in until the wee sma' hours.

The president announced that he had not asked the Duke to the Burmis Stampede, but would do so when arrangements had been completed. Hoping there is child's play to what roving Gussies is. Isn't it, Hillcrest?

A football game was played off last week end between the diggers and the boys on the haulage, which resulted in a win for the diggers by a score of 5 to 2. The haulage boys not being satisfied with the result have issued a challenge for a replay.

We send our best wishes for the success of all deserving candidates sitting under the orful eyes of John and Francis. We hope they are all able to explain why P.A.S.V.2, if not they are invited to write our worthy president for explanation before sitting again.

As announced by the Order some time ago, the Nibs and Bishaw are to be put in commission again. With Burns coal again in their bunkers they will be able to breast the mighty ocean, brave the sea serpents and get over to the old rock of Winton. Who knows, the Kaiser may have another release.

Bearing in mind the donkey's deeds, aforementioned, a soul's voice asks the chairman, if Hillcrest have yet sent out partisans of the line up of their \$300 team, and the reply was in the negative, it being supposed that the pick of the Pass players would be secured for that date.

Owing to the Stampede the Gussies' meeting was postponed last week, and this week we are listening to the stories of the more or less fortunate Gussies. Their stories describe many and strange happenings, and include as items of supreme interest the following sights: Cowboys roping, riding, bulldozing and rolling pills single-handed, also the great schemes of the management in planning up spurs dollars, and the wonderful effort and successful efforts of old Pluto. We sit and listen to the hair-raising yarns.

Hillcrest Happenings

Q:—Has anyone heard a Gussie squeak lately?

Mr. and Mrs. Joe Breger and family paid a visit to their numerous friends in Bellevue on Wednesday last.

Mrs. Frank Smith returned to Hillcrest on Tuesday last from Calgary, where she has been spending a few days with acquaintances during the Stampede week.

Mr. Morrow, the assayer for the Canadian Pacific Railway taking the place of A. Wicks at Hillcrest, arrived in town on Friday last and was much impressed with the possibilities of the Passburg area.

A fast football game is promised for the afternoon preceding the smoker when the combined teams of the Southern Alberta League will play against Bellevue, the acknowledged best team in the Pass. This is timed to be played at 2.30 sharp. Altogether the Hillcrest football fraternity is intending to take a day of it and all are heartily invited, "particularly Gussies" as the posters say.

The medals for the players have been ordered from Messrs. Ryrie Brothers of Montreal, and cost in the neighborhood of \$10.00 apiece. The cup will be presented by Mr. W. Graham, the manager of the P. Burns Company. Local talent will be called upon to furnish the entertainment part of the programme, and as there are several first-class vocalists and musicians in and around Hillcrest there is no doubt as to the success of the concert.

The Independent Order of Craft Gussies is in a bad state. Their chronicle was seen to jump into the allegorical creek last week and from all accounts has not been seen since. It is probable that like the proverbial bad penny he will turn up again and we shall not be sorry for there are few enough real authors in this world as it is. We thought of sending a wreath but changed our mind and invested the money in a bottle of Oxo instead.

Alfred Wicks and James Leigh left Hillcrest on Saturday evening for Vancouver, whence they are taking the boat for Australia. Mr. Wicks has been in Hillcrest only a short time, but during the few months he was here he became so popular and in the football circle, so indispensable, that his departure was regretted by all. Mr. Leigh was also very popular among all, filling for several months the position of assistant manager for the Hillcrest Co-operative Society, and Hillcrest people wish the two of them all success and prosperity in the future.

and those who won't be glad for what they have seen; while those who stayed away are glad they were not in the nation's-trying rush and at the mercy of the elements. So it goes, everybody is satisfied, and the Stampede ranks as an unqualified success.

later colony.

At a meeting of the Hillcrest school district on Saturday evening last Mr. John Brown, the general manager of the Hillcrest Collieries here, was unanimously elected as trustee in the place of the late secretary-treasurer and trustee, Mr. W. G. Wain.

For the fifth time this season the management of the Frank Sanatorium are going to make an attempt at holding their much postponed tennis tournament. This tournament has been extensively advertised on four occasions previously, but on each and every date set the weather turned out so stormy that tennis was an impossibility. This time they have decided to try the 14th inst., next Saturday, and a large attendance is expected.

At a meeting of the executive of the Hillcrest football club on Monday evening last it was finally decided to hold the grand smoking concert in connection with the presentation of the Burn's cup and medals to the winners of the Southern Alberta (Pass) Football League on Wednesday evening, the 18th inst. Artistic posters, designed by Mr. W. O. Tower, have been sent to all the surrounding towns, and have had the effect of making everyone take notice. The artist is to be congratulated on his fine execution and the thanks of the Hillcrest football club will be due him more than anyone else if the affair turns out to be the success it is expected to be.

S.S. Lessons Americanized

Toronto, Sept. 10.—Canadian Presbyterians and Methodists are said to be preparing to throw out the international Sunday school lesson. It is declared to be too Americanized with its illustrations invariably drawn from United States history. This is given as one of the reasons for the federation of the Presbyterian and Methodist Sunday School Boards. In dealing with the International Lesson, the board will not wait for the federation to receive its formal ratification, but the two executives will adopt plans for a national Canadian Sunday School Lesson to be prepared jointly.

The work of repairing the roads between Frank and the R.C. boundary is nearing completion, and attention will not be directed to the roads from Frank to Lundbreck, on which the government propose to expend a considerable sum. The work will be under the superintendence of A. W. Robbins, of Blairmore.

Adam Lorimer and his family, after some months stay at Bellevue and Hillcrest, have taken up their residence in Fernie.

A RARE OPPORTUNITY FOR LIVE INVESTORS

Lake City

Is the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chasms and numerous fords, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntsman who desires to outlive the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold quartz, coal, iron and pulp wood. Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure yaws will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchases. Prices run from \$150 up. For further particulars apply to the agents:

The Store With The Stock

Building Is Active

Blairmore Possesses Finest Hotel In
The Crows' Nest Pass—
New Stores

That Blairmore is on the advance steadily and sure is apparent to everyone, both resident and transient. Several months ago the limitation of hotel accommodation demanded a speedy addition to the hotels in order to cope with the ever-increasing trade. In consequence, a large addition was built to the Blairmore hotel, which made that hostelry one of the most roomy in The Crows' Nest Pass. Following this initial step, the owners of the Alberta hotel were compelled to make an immediate alteration and extension, and plans were gotten out for the moving back of a portion of the old building and the building of a more presentable and accommodating office, bar and rooms on the front at the corner of Victoria Street and Fifth Avenue. This addition is well worthy of mention and is being admired by everyone throughout this section. The new portion has a whole concrete basement, upon which stands a very attractive two-story brick, adding some twenty bedrooms as well as nicely finished offices and barroom. The new rooms are being well furnished and heated, and the accommodation throughout the whole building will compare favorably with that of any other hotel in The Pass.

"It's an ill wind that blows nobody good" is an old saying and fits in very well at present in connection with the Cosmopolitan hotel, for the town of Blairmore now feels proud of the fact that as a result of a big fire in March last she is now the possessor of one of the finest brick and concrete blocks in Southern Alberta.

A good many months since work was commenced on the excavation for the new Cosmopolitan hotel, to replace the thirty-roomed house destroyed by fire on March 25th last, and ever since the work has been pushing ahead until today we are witnessing the finishing touches to a fifty-roomed hotel which surpasses anything in the hotel line in Southern Alberta. The new Cosmopolitan is a magnificent structure exteriorly, being three storeys of solid brick upon a full concrete basement. The ceiling of the basement is nine feet high, that of the main floor fourteen feet, while both the upper flats have twelve foot ceilings.

In the basement is located a large Gurney furnace, which will supply the entire building with hot air, as well as the rooms and baths with hot water. Every part of the building will be equipped with hot and cold water, the fittings all being of the very latest type, while each of the upper flats will have a large bathroom, conveniently located.

Besides the furnace room in the basement there will be many other apartments, including a laundry, where all the laundry work for the hotel and its guests will be handled.

On the first floor is a spacious

office, having large plate glass windows which make it very attractive. A large dining room is located north of the office, off which are the kitchen, sample-rooms and servants' rooms. West of the office is the bar, which is to be fitted in a luxurious manner.

On the second floor is a full complement of twenty nicely-furnished bedrooms and suites, the parlor affording a magnificent view of Victoria street and the surrounding country.

The third floor contains twenty bedrooms and is furnished in a similar manner to the second floor.

A five-foot wainscoting of green and brown burlap is placed throughout the entire building, which besides standing for durability, is very clean-looking and attractive.

The furniture throughout is without a doubt the best yet installed in a Crow's Nest Pass hotel, everything from curtains to carpet in the bedrooms being the best obtainable.

The stairways are also very attractive and go up in a winding manner from the office at the first floor to the top.

The house throughout will be heated by hot air radiators and the most agreeable temperature will be ensured.

The new hotel is nearing completion, and will be opened inside of the next two weeks.

The masonry work on the hotel was done under the supervision of Alex Albetis, the concrete king of the Pass, while Frayer & Sinclair put in the woodwork and the finishing touches. The furnishing, heating and plumbing was installed by the Goodveve Hardware Co. of Coleman.

Next adjoining the hotel a two-story brick block is being erected by Messrs. Rosse & Beebe. This block is 100x25 feet, and has a full concrete basement. This new building is being planned as a wholesale liquor store.

East of the Rosse-Beebe block is R.M. Brisco's new gent's furnishing store, which will be opened up inside of the next three weeks. This store is 88x25 feet, and has a very attractive front of red and gray concrete bricks. The upper flat will be used for the present as living quarters to be occupied by Mr. Brisco himself, and will be so arranged that it could be easily converted into a show room if occasion required.

These, together with the Royal Bank, T. Edle's offices and the big Budd block, make one of the finest business blocks in Southern Alberta, and a sure credit to the town of Blairmore as well as an assurance not only to the people of the town but to outsiders that Blairmore is facing a big future.

FOR SALE—Typewriters for sale. Almost new. In perfect condition. Will sell cheap for cash only. Apply to "Blairmore Enterprise."

The Lilliputian Opera Company appeared at the local opera house last night and will appear again tonight. This company comprises some thirty clever lasses, and their presentation of "The Girl in the Shriane" and "Billie Taylor" have won them considerable merit all along their tour.

City Fathers Meet

Curfew By Law Passes Its Third
Reading—Other Important Business

The regular meeting of the city fathers took place at the council chamber on Monday night, these being present Mayor Lyon, Councillors Dutil, Sinclair, Sparks and McLeod, Secretary-Treasurer Shern, and the usual quota of spectators hugging the back walls.

The minutes of previous meeting were read and approved.

A communication from Mrs. L. W. Kribbs was read, stating that a clothes line and bogmire near her residence was causing considerable annoyance, and requesting that the council take steps to have same removed. The council would look into the matter at once.

The Leitch Collieries Co., of Passburg, wrote asking if the town could sell them 650 feet of wood pipe for water main. Secretary was instructed to notify the company that the town had no pipe to spare.

Dr. A. H. Baker wrote acknowledging receipt of the town's advice to act temporarily as health officer, and consenting to act as such.

A communication was read from the mayor and secretary of the town of Leduc, announcing the fact of a convention of municipalities to be held in the near future at Innisfail and requesting that our town be represented. Any town could send a delegation of from one to seven.

A letter from the commissioner of irrigation respecting the diversion of water from York Creek was read, and another letter from the Department of the Interior asking how far the water works had advanced, and as to what time same would be handed over to the town.

Chief Irwin reported that one light had been off in nineteen days.

W. J. Budd wrote to ask what time the town would be in position to take over the water works.

The mayor of the town of Coleman wrote to ask at what rate the town had decided to assess coal lands, and suggesting that the coal towns of Southern Alberta get together and arrange a fixed uniform rate.

An encouraging report from the secretary of the school board was read.

The following accounts were next read and ordered paid: W. A. Beebe, \$40; C.P.R., \$135; J. Whiller, \$1.00; Winnipeg Rubber Co., \$10.02; H. M. Customs, for duty on hydrants, etc., \$149.05; Fire Chief Burrows, salary for half year, \$50; W. L. Shera, \$80; J. R. Irwin, \$100; Dawson & Green, \$37.95.

The committee appointed to interview S. J. Sargent re moving scales, reported that if council would grant location for wagon scales on the south side of Victoria street, near the C.P.R. right of way, Mr. Sargent would erect the scales there in

a proper manner, to be governed by a lease or rental payable to the town. The scales would occupy about ten feet and would prove a great convenience for weighing teams, loads of coal, produce, etc.

Dutil-McLeod—That town's solicitor be asked to draw up agreement between the town and Mr. Sargent respecting the said scales, and to fix a rental of \$1 per month. The work of re-erection of scales to be under the supervision of the municipal engineer, agreement requiring that notice of abolition of contract be made within sixty days. Carried.

On motion the Curfew By-Law and the Vagrancy By-Law passed their third reading.

The matter of employing a medical health officer for the town was next taken up. Some months ago the council asked Dr. Baker to act as health officer, offering \$150 per annum as a commission, which was refused. Dr. Baker asked for \$250. The presence of several cases of typhoid in a certain part of the town made it necessary to appoint a medical health officer at once. The cases in question are supposed to have had their origin from a small polluted stream running down the hill near the Boyd residence.

The meeting adjourned at 10:20 p.m.
